Abitalia are dealers of an extensive portfolio of internationally recognised lighting brands including Foscarini, Flos, Barovier & Toso, Lolli e Memmoli, Luceplan, Macrolux and many more. Covering every type of lighting for every environment, Abitalia has built an excellent relationship with suppliers and contract clients. Our design studio in Cheltenham displays a number of suspended, floor standing, table and wall mounted lights.

One particular manufacturer of contemporary lighting Abitalia work closely with is Lolli e Memmoli. Abitalia are the exclusive dealers of the exclusive Lolli e Memmoli chandelier collection. Their collection is distinguished by a contemporary form of deconstructionism applied to the shape of the classic baroque chandelier. Each piece is a one-off item, a piece in which crystals are assembled in a unique architecture of order and disorder: a skillfully balanced blend for a striking and exciting final effect. For an insight of the entire collection, please visit Lolli e Memmoli's website.

Abitalia will match any online price for genuine lighting from any of our brands.

flos - designer lighting

Flos continued to scout for emerging talent at an international level. In 1988 the Flos started collaborating with Philippe Starck. Other talented designers followed thereafter: Jasper Morrison, Marc Newson, Antonio Citterio, Marcel Wanders, Sebastian Wrong, Piero Lissoni, Rodolfo Dordoni and Patricia Urquiola. Flos has created some of the iconic pieces of design in our time.

foscarini - contemporary lights

The Italian high quality lighting company is characterised by its research, into forms and materials, as well as ideas. Foscarini works with both established designers who have created new trends and with younger, emerging exponents of alternative styles and approaches. This makes for a highly original catalogue and one of the most varied in the sector.

sourcing a specific light

Abitalia are dealers for a number of European lighting brands. In many instances Abitalia can source specific lights for projects. Abitalia works with a number of contract clients to supply lighting for prestigious projects, including hotels, retail spaces and offices. For the current list of lighting companies, have a look at our supplier directory.
