Mr Gatsby has requested your attendance at his party this evening ....

*"In his blue gardens men and girls came and went like moths among the whisperings and the champagne and the stars" – F.Scott Fitzgerald*

For those of you who weren't aware, I'm a movie fanatic. Much like how I hope my posts will reach you all, I find that films have such a strong ability to inspire and encourage the imagination.

My first post is The Great Gatsby, as I have recently re-read the book and found myself watching several of the movie adaptations lately. Throughout the film I caught myself wondering what a modern day Jay Gatsby's house would look like – so I've decided to create it!

I created this design with my idea of Gatsby in my head – a metro-sexual gentleman with old-world sophistication (and ideally, manners!), charisma and bold style. I tried to create an extremely decadent and dramatic design, which incorporates modern design elements, while subtly mirroring the glamorous golden era of the 20's.
